AIDAN PELLE

SOFTWARE DEVELOPMENT | AIDANPELLE.GITHUB.IO

AP

OBJECTIVE

I'd like to further develop my skills as a programmer and gain more experience in such an interesting field.

SKILLS

I primarily code in Java, Python and JavaScript. I've completed a certificate in Excel and worked with SQL databases for about a year. I've also built a personal website to host my portfolio at https://aidanpelle.github.io. While my programming experience may be lacking, my desire to learn is not.

WORK EXPERIENCE

WEBSITE DEVELOPER • JULY 2020 – NOVEMBER 2020
I've completed a website for a client using SquareSpace, along with some custom CSS and JS (pivotaltraining.org).

SHIFT LEADER • PEET'S COFFEE & TEA • APRIL 2019 – JUNE 2020
While primarily working as a shift leader, I expanded my role in the company to include creating an Excel sheet to automate tip pool distribution, manage invoices, receive product shipments, and lead a team of 3-5 people daily.

EDUCATION

SOFTWARE DEVELOPMENT DIPLOMA • MAY 2022 • SAIT
Currently have a 3.94 GPA, looking to further my knowledge in programming and software development.

HIGH SCHOOL DIPLOMA • JUNE 2017 • TERRA LINDA HIGH SCHOOL
Graduated with a perfect GPA while learning French and Spanish, volunteered on the side and participated in water polo and swim team.

OTHER EXPERIENCE

Built an RPG using event-driven programming with JavaFX, along with version control through Git and GitHub.

Member of the Phi Theta Kappa Honor Society for my GPA at SAIT.

Built an Audio Player using JavaFX, with support for custom folders of sound files.

Completed the AdventOfCode2020 programming challenges using Java.
